EXPRESS

Mobile services

A mobile version of Merlio Express enables the user to maximise off-site sales opportunities and synchronise their tablet or laptop with the store system on their return.

Our mobile Merlio stocktake program allows the user to make product categorisation and stock level adjustments on the fly.

In both cases Merlio demonstrates a commitment to furthering and establishing more new and productive mobile services.

Who uses Merlio Express?

Merlio Express has been created to deliver a till and stock management system that is easy to deploy either on site or remotely making best use of Microsoft tools and services.

It is used by a diverse range of retailers in many different sectors large and small.

We now have a new version that provides for all of the elements that are key for Cash & Carry businesses too.
